Home Minister in City

▶ Regrets presence of certain black sheep to tarnish image of Police

▶ Passing Out Parade of 45th batch of PSIs (Civil) held at KPA

Mysuru, Feb. 2 (RK&BCT)- The Passing Out Parade of the 45th batch of Police Sub-Inspector (Civil) Probationers from the Karnataka Police Academy (KPA) was held at KPA premises this morning.

Home Minister Araga Jnanendra, who was the chief guest, witnessed all ceremonial formalities including Guard of Honour, flag hoisting, march past and also gave away trophies for trained star candidates.

Due to pandemic situation, the event was webcast live from KPA so that parents and relatives of candidates could watch the proud moment from the comfort of their homes instead of physically being present.

In all, 228 PSIs passed out today and of them more than 20 percent (45) are women. Interestingly, many of the PSIs are double graduates who have excelled in their own fields like mechanical and civil engineering, aeronautical engineering, biotechnology, science, arts and commerce post-graduates and the likes.

There are 91 engineering graduates and two MBA graduates. 58 candidates have already had experience in serving various Government Departments. Probationers have undergone training including training in field and operations.

Of late, technology is playing an important role especially in detection of cyber and economic offences. The probationary officers have been trained to adapt to the new technology to crack such cases.

Araga Jnanendra called upon the PSIs to protect the lives and properties. "Most of you are double graduates and it is a matter of pride. Help safeguard the health of the society and don't succumb to any political or financial pressure. Don't lobby for plum postings and be a role model in the society," he said.

(See MINISTER on page 6)

Home Minister Araga Jnanendra presenting the All Round Best Probationer Trophy to Basagoud Nerli in city this morning as Karnataka Police Academy (KPA) Director Vipul Kumar and Additional Director General of Police (Training) P. Harishekaran look on.

Dr. Natesh back as MUDA Commr.

Mysuru, Feb. 2 (RK&BCT)- In a legal victory of sorts to former MUDA Commissioner and KAS Officer Dr. D.B. Natesh, who has already spelt out his desire of quitting Government service, is back at the helm in MUDA as Commissioner, following the Karnataka Administrative Tribunal (KAT) reinstating him. Dr. Natesh took charge yesterday.

Another KAS Officer G.T. Dinesh Kumar, who had taken over as MUDA Commissioner earlier following Natesh's transfer, is now awaiting the Government's order following the KAT ruling. Dr. Natesh had petitioned the KAT as the Government had transferred him before he completed his term and the KAT ruled in his favour. On May 4, 2020, Dr. Natesh had taken charge of MUDA from outgoing Commissioner P.S. Kantharaju.

Dr. D.B. Natesh

Armed with KAT stay, Dr. Natesh arrived at MUDA office at 5.30 pm yesterday and signed the CTC documents, officially taking over the responsibility. Staying at the office for 10 minutes, he left the place later. With Dr. Natesh back as MUDA Commissioner, Dinesh has become an officer to serve MUDA only for over 15 days.

A back and forth transfer and reinstatement process was initiated on Jan. 10 when Dr. Natesh was transferred by the State Government without indicating any place. It gave MUDA's additional charge to Mysuru City Corporation (MCC) Commissioner and accordingly MCC Commissioner G. Lakshmikantha Reddy had taken charge.

(See Dr. NATESH on page 6)

Corrections and Clarifications

In *Voice of the Reader* titled **"Gas project implementation: MGP is our last recourse"** published in yesterday's *SOM*, the designation of the correspondent Ashvini Ranjan was mentioned as former MGP President by oversight. It may please be read as **MGP member.** The error is regretted.—**Ed**

Health Department launches eSanjeevaniOPD app

Mysuru, Feb. 2 (ASC)- The Department of Health and Family Welfare has launched eSanjeevaniOPD app to fight the spread of COVID-19 and its variants, as the children, senior citizens, pregnant women who visit hospitals are prone to infection.

Similarly, COVID patients in isolation may also make use of this app to prevent their primary contacts and the public from getting infected. eSanjeevaniOPD-National Teleconsultation Service application ensures safe and structured video based clinical consultations, free of cost, between a doctor and a patient from 9 am to 9 pm. To avail this service, the beneficiaries (android users) may download eSanjeevani app from Google Play Store by visiting ***https://play.google.com/store/apps/details?id=in.hied.esanjeevaniopd***, according to a press release from District Health and Family Welfare Officer.

Post-matric student scholarship: Last date extended

Mysuru, Feb. 2 (ASC)- The Backward Classes Welfare Department (BCWD), which had invited applications to avail post-matric student scholarships, fee concession and Vidyasiri Scheme (food and hostel facility for students) from eligible students belonging to Backward Classes, nomadic and semi-nomadic tribal community and category-1 for the year 2021-22, has extended last date for submission of applications to avail benefits till Feb. 28.

Applications must be submitted online by logging onto website *https://ssp.postmatric.karnataka.gov.in.* For details, visit *https://bcwd.karnataka.gov.in/info-4/Online+Application/en* or contact Ph: 080-35254757; Mob: 80507-70005 or 80507-70004, according to a press release from Backward Classes Welfare Department.

EDITOR'S BOTTOMLINE

The Centre's proposed amendment to Central deputation rules for IAS, IPS and Indian Forest Service Officers to mitigate the shortage of personnel is being opposed by opposition-ruled States. The situation calls for reforms instead of confrontation. The Centre's grouse is that States haven't been clearing enough officers for Central deputation while States complain the new rules easing the Centre's ability to secure an assured supply of officers is a power grab in disguise. Both sides should recognise the key problems — shortage of officers and abundance of Government Departments.

Therefore, intake of officers through UPSC must increase. Second, big ideas like lateral entry have stuttered. Reforms that streamline emoluments, link development outcomes to career progression, and insulate bureaucrats from unwarranted political interference, are needed to woo talent from corporate, research and academic fields. Third, sprawling Governments need trimming. States are constantly spawning new PSUs and welfare bodies. For instance, in 2020, Andhra formed a whopping 56 Backward Class Corporations. Instead of subdividing existing pies, talk about real reforms.

NEWS SPARKLERS

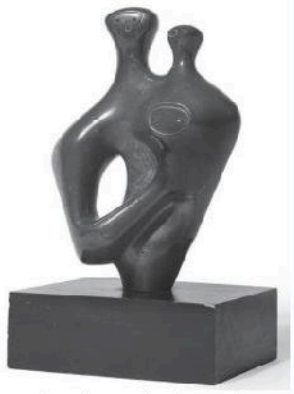
World's largest display of citrus fruits

Louisiana: A Louisiana supermarket teamed up with a fruit producer to break the Guinness World Record for the largest display of citrus fruits.

Rouses Markets and Sunkist Growers said they gathered more than 40,000 pounds of oranges, mandarins, lemons, grapefruits and tangelos at the Rouses Markets store in Metairie to break the Guinness record.

The display vastly exceeded the goal of 6,177 pounds set by Guinness before the attempt. Organisers said the display totalled more than 1,00,000 individual fruits.

Lead sculpture to fetch up to 70,000 dollars



England: A lead sculpture that spent decades on the mantle of a British farmhouse was identified as a rare piece by British artist Henry Moore, and is expected to fetch up to $70,000 at auction.

The sculpture, which is scheduled to be auctioned on March 16 by Dreweatts, was identified as a work titled Mother and Child by 20th century Modernist sculptor Henry Moore.

The auction house said the sculpture was on the mantle in John Hastings' Wiltshire, England, home from the 1970s until his death in 2019.

The Hastings family contacted Dreweatts and the Henry Moore Foundation, both of which had the artwork authenticated by their respective experts. The sculpture is believed to have been a gift from Moore to Hastings' father, Hubert de Cronin Hastings, who was an editor at the Architectural Review for nearly 50 years. The magazine frequently featured Moore and his artwork.

HEALTH CAPSULE

Bust stress :

Stress suppresses your immunity, so you need to reduce it to keep immunity humming. One of the easiest ways to de-stress anywhere, anytime, is to meditate. Breathing exercises work wonders too. Add a few moments of yoga at the start or end of your day for an added round of relaxation and immunity boosting.

Install speed breakers on KRS road in front of CFTRI and Rail Museum

Sir,

I reside at the Railway Quarters near the Railway Museum. The KRS road in front of CFTRI and Railway Museum is very dangerous and has become accident prone with many accidents taking place frequently.

It is very difficult for the people to cross the road and reach the West Gate of Railway Station as motorists drive their vehicles with very high speed.

I request the Mysuru City Corporation (MCC) Commissioner and the authorities concerned to look into this problem and also install speed breakers on this road to avert accidents.

New office-bearers of Mysore Sahodaya School Complex

Mysuru, Feb. 2- The Annual General Body Meeting of Mysore Sahodaya Complex held on Jan. 28 unanimously elected the following office-bearers for the year 2022-24: K.G. Mathew, Principal, Excel Public School, was elected as President, M.A. Machamma, Principal, STG Public School (Secretary), Annie Helen Joseph, Principal, Capitol Public School (Treasurer), Preethi Vincent, Principal, Mt.Litera Zee School (Vice-President) Rajeshwari, Principal, SVEI Public School (Joint Secretary), M. Radhakrishnan, Principal, Baden Powell Public School, Linto Andrews, Principal, St. Thomas Public School, Anurag, Principal, Maharshi Public School, Sr. Vineetha, Principal, St. Rossello's Central School (Executive Committee Members); Krishna Bangera, Principal, Podar International School and Sivakumar, Principal, Lions West Sevaniketan School (Ex-Officio Members).

Sahodaya School Complex is an initiative promoted by the Central Board of Secondary Education (CBSE), New Delhi, to facilitate creative and effective collaboration and cooperation among schools affiliated to the Board. There are around 300 Sahodaya Complexes across the country, represented by more than 10,000 schools. The Mysore Unit of Sahodaya Complex was set up in 2012 with the objective of providing an effective platform to ensure collective growth and benefit among the member schools. It has 75 Schools across the districts of Mysuru, Mandya, Hassan, Chamarajanagar and Kodagu as its members. The Sahodya School Complexes act as a liaison between CBSE and the member schools, and represent the members' views, problems etc. to the CBSE authorities.

KSOU gets high rank from UGC

Former VC thanks elected representatives for their co-operation

Mysuru, Feb. 2 (RKB&DM)- Thanking the elected representatives, the University faculty, staff and all others concerned, for the city-based KSOU (Karnataka State Open University)getting a high rank from the UGC in recognition of the Varsity's excellent academic performance in 2018-19 when he was the Vice-Chancellor, former KSOU VC Prof. D. Shivalingaiah has expressed happiness for KSOU's achievement and recognition.

Addressing a press meet here on Monday, Prof. Shivalingaiah, who was VC of KSOU from 2016 to 2019, said that the UGC has granted a high ranking to KSOU for its academic excellence in 2018-19, when he was the VC.

Pointing out that the UGC published its evaluation report of the University on Jan. 23, 2022, he said KSOU has secured 300 out of 400 marks, which resulted in KSOU getting a high ranking.

Enumerating the performance of the University when he served as its VC, Prof. Shivalingaiah said that the University had maintained fiscal prudency.

Prof. Shivalingaiah

Pointing out that more than 30 courses were either introduced or re-started during his tenure, he said that a student grievances cell was set up for the first time and the Centre for Internal Quality Assessment (CIQA) was established. Maintaining that the University started online admissions for the first time in 2018, he said that over 12,000 students had then enrolled in a short span of time.

Stressing on the need for the Open University to focus more on increasing admissions, he observed that now, with the implementation of NEP (National Education Policy), the KSOU should make immediate and appropriate efforts to get NAAC recognition as soon as possible.

Student Career Development programme from tomorrow

Mysuru, Feb. 2 (SSM)- The Department of Chemistry, University of Mysore (UoM) in association with Karnataka Science and Technology Promotion Society (KSTePS), has organised three-day Student Career Development Programme from Feb. 3 to 5 at Chemistry Department in Manasagangothri.

Former Vice-Chancellor of UoM Prof. K.S. Rangappa will inaugurate. Vice-Chancellor Prof. G. Hemantha Kumar will preside. KSTePS Director A.B. Basavaraj will be present.

BEML employees begin protest against privatisation move

To stage protest every morning for five days in front of factory's main gate

Mysuru, Feb. 2 (PM&KS)- Alleging that the Government was out to privatise Defence Public Sector giant BEML (Bharath Earth Movers Limited), employees of BEML in city began their protest in front of the Factory main gate on Hootagalli-KRS Road here yesterday.

As part of the protest, the employees will stage demonstration in front of the main gate for more than 30 minutes every morning for five days.

BEML Employees Association Mysuru President H.Y. Munireddy said that BEML with nearly 8,000 employees (Bengaluru, KGF, Mysuru and Palakad in Kerala units) was making profit since 1964 and has made immense contribution to the defence, mining, Railway and metro sectors.

Pointing out that despite the factory making profits, the Government was planning to privatise this Public Sector Unit (PSU), Munireddy demanded that the company remain as a PSU and urged the Government not to privatise BEML. He further said that BEML apart from paying taxes to the Centre and paying crores of rupees in the form of profits was also paying dividends to shareholders every year besides contributing for the progress of the country.

Munireddy said that BEML Mysuru unit was started in 1984 on a 700 acre plot and has truck, engine and aerospace manufacturing units and added that the Employees Unions have been protesting since 2017.

He alleged that despite strong opposition from the employees, the Union Government has stuck to its stand of selling a portion of stake to the private company in the name of disinvestment.

It may be recalled that BEML employees have been staging protests against the privatisation move by the Union Government since many years and had also staged protests in Delhi besides submitting memorandums to elected representatives urging them to convince the Union Government to drop the plans of privatising BEML.

Association General Secretary M.D. Rajashekarmurthy, Vice-President Govindareddy, Secretary Suresh, Treasurer M.B. Jagadish and hundreds of employees took part in the protest.

Plea to lift restrictions on gyms, swimming pools

Mysuru, Feb. 2 (GA&KS)- Urging for lifting 50:50 restrictions imposed on gymnasiums and swimming pools, the owners of these fitness centres have submitted a memorandum to the State Government to revoke the restrictions.

Pointing out that the Government had permitted business establishments of all sectors to conduct business with full occupancy, but had imposed 50:50 restrictions on gyms and swimming pools, State Gym and Fitness Centre Owners Association President Gym Ravi said that a memorandum urging the State Government to revoke its decision was submitted to Chief Minister Basavaraj Bommai on Sunday.

Ravi said that during the meeting, the CM told them that the 50:50 restrictions was imposed after consulting health experts and officials, who had said that air condition equipment were being used in gyms, no fresh air, impossible to maintain social distancing and the same weight training equipment being used by many and hence such a restriction was imposed.

In the memorandum, the Association has stated that new facilities by keeping up with the guidelines issued by the Government have been implemented in gyms and air conditioning equipment were not being used.

Measures have been taken for flow of fresh air in gyms and only 50 persons are allowed to work out by wearing face mask and use of hand sanitisers.

The memorandum has urged the Government to once again go through the restrictions and allow gyms to function with full occupancy from next week. Ravi said that the CM has assured of lifting the restrictions soon.

Mysuru Gym and Fitness Centre Owners' Association President Harsha said that there are more than 250 gyms and fitness centres in city and more than 20 percent of them have been decided to close down.

He further said that if the State Government continues with the restrictions, there are chances of many more gyms and fitness centres downing the shutters.

Meanwhile, Shiva, a swimming coach at Nalwadi Krishnaraja Wadiyar Swimming Pool said that the number of people registering for training in swimming had come down due to prevailing restrictions and also because the people will not get their fee back, if the Government imposes lockdown or weekend curfew suddenly.

He further said that those joining for swimming training are very less now due to cold season and the number of people opting for training will increase in March and urged the Government to lift the restrictions by then.

Obituary

Kummanda Dalu Appaiah

Mysuru, Feb. 2 - Kummanda

Dalu Appaiah (67), a resident of # 62, 2nd Main, Vijayanagar 1st Stage, passed away yesterday night in city.

Head Master and a resident of Doddakoppal village in K.R. Nagar taluk, passed away yesterday at the village.

He leaves behind sons Udayshankar, Tagore and Shivaprasad, daughter Rajeshwari and a host of relatives and friends.

Last rites were performed at his native place, according to family sources.

Returning to classrooms a challenge for children

Parents want both online and offline learning options till kids are vaccinated

Picture for representation only.

By S.T. Ravikumar

Mysuru, Feb. 2- COVID pandemic has brought in a sea change in the education system while online learning in these difficult times has saved the loss of education and also saved the jobs of teachers.

Though the big change from offline education to online education was initially difficult for students as well as for the teachers to cope up with as the pandemic was surrounded with bad news and negativity, they adjusted to the new normal. But now, as the schools have reopened, students are hesitant to come back to physical classes.

Many children are addicted to screen time and are facing difficulty in classroom learning. Though online learning has proved itself as an efficient tool, children are finding it difficult to adjust to face-to-face classroom learning.

With the State Government allowing schools to reopen, parents are still divided on whether to send their children to school since fresh COVID infections are still relatively high. While many parents feel that they could not wait to send their children to schools, others said that it was dangerous as children could spread the infection to elders at home.

DAUNTING TASK

Many parents who desperately want to send children back to schools are complaining that their children are showing least interest in getting back to physical classes after two years of on-screen learning. And it is a herculean task for parents to wean away their children from mobile phones, computers and laptops.

Initially, educational institutions adopted online learning as a temporary measure and everyone hoped that things would return to normal after a while, like maybe after a month or so. But little did anyone know that returning to classrooms will take so long.

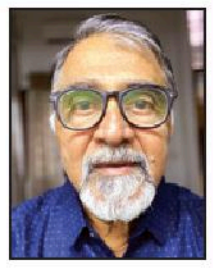
COUNSELLING SESSIONS

And when finally the classrooms are fully open, there is a deep disinterest among children. This has prompted many parents in Mysuru to take their children for counselling by Child Psychologists and Paediatricians. Some parents are taking their grown-up children to Psychiatrists for advice and counselling.

What is worrying the parents is that their children are showing a resistant attitude towards everything — be it food, sleep and even playing outside with neighbourhood children. A popular opinion among parents is that neither the Government nor schools should force parents to do anything until kids are also vaccinated. They must be given the option to attend both offline and online classes.

Education experts said that interaction with other students, playtime between classes will help students and they will benefit if they are encouraged to go to libraries and read books, and move away from phones and limit screen time. The big difference between offline and online classes is that children can take part in personal interactions and have more learning opportunities and moral lessons, when it comes to sharing and other activities, said experts. Parents also said that students grasp concepts faster when teachers focus on student interests.

Vaccination & COVID appropriate behaviour will bring normalcy in school



"First of all, the fear of COVID must go for the children to gain their normal state. Those children who were leading a secluded life away from schools and friends and addicted to screens will take time to come out of their shells. While increased screen time will heighten their negative aspects and also lead to depression at times, it will also lead to obesity as there is a lack of activity. Many children are also sleep-deprived as they stay up late in the night and nowadays, their numbers at Paediatric Clinics has gone up.

— Dr. S.N. Mothi, Consultant Paediatrician & Founder-Trustee of Ashakirana Hospital

Exerting pressure, scolding kids will not help

"Due to lockdown and other COVID restrictions, there has been a problem in concentration. Children cannot focus on their studies. All these months they were glued to laptops, mobiles and TVs. Now all of a sudden they are expected to go to school. We all must give a little time for the children to adjust to their new routine. Do not expect immediate change and change will happen in stages. Exerting pressure, scolding and even beating children up will not help. We must allow their minds to blossom.

— Dr. B.N. Raveesh, Professor & Head, Department of Psychiatry, MMC&RI

More than children, parents need advice

"If you beat up your children for failing to adjust to schools or for any other reason, remember that it will only aggravate the situation. Lots of love, care and guidance are crucial in difficult times. If we adults cannot adjust to the difficult times, think of young minds. In fact, more than children, their parents need counselling and psychiatric advice. Parents must try and divert the attention of children from screens to painting, walking, music, dance and other such activities. If you snatch gadgets away from them, it will only have an adverse impact and will lead to depression. And we all know what depression results in.

— Dr. M.R. Savitha, Professor, Department of Paediatrics, MMC&RI and Children's COVID Officer, Cheluvamba Hospital

Not the best time to send children to schools

"Going back to school at this juncture will make things only worse for children as the cases are rising and many children are turning COVID positive and have fever. There is an unsafe atmosphere at schools now especially with high infection numbers. Moreover, online is not a good way to teach children. They have to be in a classroom to learn and be in groups of children to be happy and also be happy at home.

Ultimately schools have to start and there are no doubts about it. But at this juncture, it would only harm the children as there is a third wave and opening of schools now is wrong. Numbers need to come down and I would advise the parents not to send children to schools till the numbers are very low. See, before also children used to get fever and cold. But none of them were COVID positive. Since the last three weeks, the number of positives among school-going children is high.

—Dr. Rajeshwari Madappa, Paediatrician & Director, Sigma Hospital, Mysuru

Fixed Odds Betting windows opened at MRC

FROM LEFT: ***Fixed Odds Betting (FOB) Technical Person Suresh Babu, Cherian Abraham, MRC CEO and Secretary N.H.S. Mani, Member Vasanth Ponnappa, Committee Member H.K. Ramesh, FOB Partner Lavanya Reddy, MRC Steward T.D. Mahesh, MRC Chairman Y.B. Ganesh, Steward B.U. Chengappa, MRC former Chairman Dr. Sathyanarayan, Committee Members B.N. Cariappa and K.M. Chandregowda and Member M. Nikilesh seen during the inauguration of FOB windows at MRC premises here this morning.***

Mysuru, Feb. 2 (PM&KS) - The Mysore Race Club (MRC) Limited, in association with Treasure Win Enterprises LLP, has introduced Fixed Odds Betting (FOB), a new form of betting at MRC with effect from today (Feb. 2).

Ten FOB windows were inaugurated by MRC Chairman Y.B. Ganesh this morning. Speaking on the occasion, he said that this new form of betting would fetch good revenue to MRC as well as good tax to the Government.

"If the Government gives its nod for online betting, people can download the app and place their bets from anywhere," Ganesh said and expressed confidence that the Government would give nod for online betting soon.

This FOB platform would grow if online betting take place, he said and added that FOB will take place during all races at MRC. FOB technical persons, MRC Stewards, Committee Members and others were present.

Home Minister in City

(Continued from page 1)

Training his guns on the loopholes in the Department, the Minister said that there are certain black sheep at various levels in the Police Department who bring disrepute to the entire Police machinery. "There are corrupt elements and they tarnish the image of the Department. Please stay away from them," he said.

The Home Minister advised the PSIs to desist from involving themselves from real estate business. "Do not join hands with criminals and do not settle real estate deals. If you stoop to that level, your image in the public will suffer a beating and tomorrow there will be a situation where you will be publicly humiliated," he warned.

P. Harishekaran, Additional Director General of Police (ADGP-Training), IG and KPA Director Vipul Kumar, KPA Deputy Director Dr. Dharanidevi Malagatti and others were present.

Two engineering students from Hassan killed in car-truck collision

Hunsur, Feb. 2 (Mahesh& BCT)- Two engineering students from Hassan were killed in an accident near Bilikere and two more students have been injured when their car collided with a truck near Bilikere at 12.30 am. The students were classmates and were studying in the second year at Malnad Engineering College, Hassan.

The group of friends were heading towards Mysuru from Hassan. The deceased students have been identified as Mouleshwara Reddy who died on the spot and Thejas, who died while he was being shifted to Mysuru. Two more students, Shubhankar and Suhan, have been injured and they have been admitted at a private hospital in Mysuru.

The students are the natives of Kolar, Shivamogga, Arasikere and Bengaluru. The high-end car (KA-01-MP-7172) collided head-on with a truck near Ramenahalli. The injured students are out of danger now, said doctors.

The bodies of deceased students have been shifted to the mortuary at Mysore Medical College and Research Institute (MMC&RI). Bilikere Police have registered a case.

Dr. Natesh back as MUDA Commr.

(Continued from page 1)

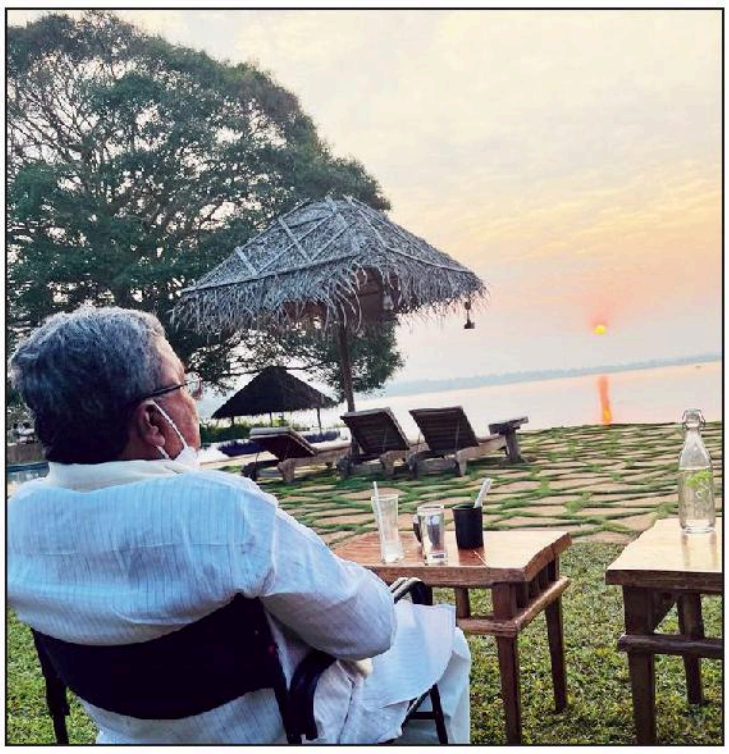
Meanwhile, Dr. Natesh knocked the KAT's doors and on Jan. 14, the KAT stayed his transfer. But Dr. Natesh could not take over MUDA administration as he was posted to be the Managing Director of Chamundeshwari Electricity Supply Corporation (CESC).

Simultaneously, the Government also posted G.T. Dinesh Kumar, who was serving as Administrative Officer of Ghataprabha Command Area Development Authority, Belagavi, as MUDA Commissioner. Dinesh Kumar took charge on Jan.17.

It may be recalled here that the State Government first transferred Dr. Natesh in June 2021 to Veterinary Department in Bengaluru and had posted Sheelavanth M. Shivakumar as MUDA Commissioner. But the Government, that had orally instructed both Dr. Natesh and Shivakumar, not to hand over charge of their respective posts, cancelled the transfer in just a day.

Siddu enjoys boat safari, sunset at resort

Former Chief Minister Siddharamaiah, who took a holiday break, went on a boat safari at Kabini Backwaters yesterday morning. He was accompanied by MLAs H.P. Manjunath and Anil Chikkamadu among others. During the boat safari, the former CM sighted a few migratory birds such as Bar-headed Geese. A guide present during the boat safari explained about the flora and fauna at the backwaters. Picture alongside shows Siddharamaiah enjoying the sunset at a private resort in H.D. Kote. Siddu also went on a safari inside the forest on Monday evening during which he sighted two tigers and a elephant herd, it is learnt.



It's 'Sab ka vinash' budget, says former CM Siddharamaiah

H.D. Kote, Feb. 2 (Manju&KS)- Former Chief Minister Siddharamaiah yesterday criticised the Union Budget presented by Finance Minister Nirmala Sitharaman as 'Sab ka vinash' budget for its poor allocation to various sectors such as health, agriculture, education food security and employment generation among others. The former CM also expressed his concern over mounting debts of the country.

Addressing a press meet at Jungle Lodges and Resorts at Karapura yesterday, Siddharamaiah regretted that the allocation for the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) scheme had come down by more than Rs. 25,000 crore in comparison to last year even though a large number of people had returned to their villages after losing their jobs in COVID-19.

Pointing out that the Union Finance Minister had presented Rs. 34 lakh crore budget last year, Siddharamaiah said that Rs. 39 lakh crore budget was presented this year and added that the Centre would take a loan of Rs. 11,87,000 crore for the next year's budget.

Stating that there was a debt of Rs. 135 lakh crore on the country last year, he said that there was a debt of Rs. 53 lakh crore during the term of Dr. Manmohan Singh as the Prime Minister till he stepped down, Siddharamaiah said that Prime Minister Narendra Modi in just eight years had taken a loan of Rs. 93 lakh crore and has to pay Rs. 9,40,000 crore as interest every year.

With a large number of small industries shutting down, unemployment in the country is rising. The Budget neither offers any programmes to revive the small industries nor offers any solution to the problem, he regretted.

The former CM trained his guns on the Budget for not setting aside sufficient funds for the health sector despite threat of COVID-19 continuing to linger. Last year during 2021-22, the Government had allocated Rs. 82,920 crore for the health sector. But, this year 2022-23, the allocation is only Rs. 83,000 crore, which is an increase of barely Rs. 80 crore.

Also, he said that the corporate bodies tax had come down from 30 per cent to 22.5 percent, but prices of essential items such as petrol, diesel, gas, steel, and fertilisers continue to increase. "The corporate sector has become the priority of this Government", he said.

MLAs Anil Chikkamadu and H.P. Manjunath, former MLA M.K. Somashekar, District Congress President Dr. B.J. Vijaykumar and others were present at the press meet.

MP pitches for National Institute of Pharmaceutical Education and Research in Mysuru

Mysuru, Feb. 2 (BCT)- If everything goes as per plans, Mysuru is likely to get a National Institute of Pharmaceutical Education and Research (NIPER) as the city is ideally suited for it. Mysuru-Kodagu MP Pratap Simha has pitched for its establishment and has approached Bhagawanth Khuba, Minister of State, Chemicals and Fertilisers, New and Renewable Energy, with a proposal.

Meeting the Minister in New Delhi yesterday, the MP stated that students from all over India and abroad regularly flock to Mysuru to do their graduate and post-graduate studies.

The NIPER can add to the list of many engineering, medical, law, business colleges that are operating from Mysuru and moreover, two of India's prestigious labs — Council of Scientific and Industrial Research-Central Food Technological Research Institute (CSIR-CFTRI) and Defence Food Research Laboratory (DFRL), a unit of DRDO — are headquartered in Mysuru. They can provide excellent research collaboration opportunities with NIPER, Simha stated.

Mysuru has 50 small-medium, and large pharmaceutical companies, thus making it an ideal place for NIPER. Besides, Bengaluru, the pharmaceutical hub of South India is just 110 kms away. So, locating the NIPER centre in Mysuru will act as a regional force multiplier in building a strong academics and industry collaboration which will be mutually beneficial, the MP noted.

Also, the land for NIPER Mysuru can be allocated at the earliest, he added. It may be mentioned here that NIPER has been recognised as an institute of national importance following the NIPER (Amendment) Bill 2021 passed in the Lok Sabha. The Bill enhanced the status of six NIPERs in India making the institute autonomous with freedom to hold examinations, grant degrees and other academic distinctions or titles and will be entitled to receive Central funding. At present, NIPER is located in Ahmedabad, Guwahati, Hajipur, Hyderabad, Kolkata and Raebareli.

Mysuru is also a Medical City

By R. Chandra Prakash

Chandra Prakash

Mysuru is affectionately called by different names due to its certain unique features. It is called as a Heritage City, a City of Palaces, a Cultural City, an Educational City, Yoga City, a Sandal City, a Tourist City, a Film City etc. But one particular feature, which is equally unique to Mysuru is unrecognised, and therefore Mysuru has missed out on one more much deserved sobriquet — it is also a Medical City!

For a population of the size of Mysuru the availability of every kind of medical infrastructure for every kind of health problem within this city is quite remarkable. Mysuru has about 800-plus doctors and more than 1,400 clinics and hospitals. It is due to this phenomenal health related facilities that many prominent medical entrepreneurs from this city had planned to create an international health hub here.

They had a plan for creating a health-based tourism to attract patients from all over the world by coupling the flourishing tourist industry with their medical profession. They had even planned to have Helicopter Ambulance links with some major cities of the country to make this possible. And their professional expertise had a strong business logic.

The waiting time for even a minor operation such as appendicitis in some European countries and in the USA could be few months. The medical costs could be exorbitant, the insurance coverage limiting factor. Oil-rich Middle Eastern countries have money in plenty, but the medical facilities are highly limited. The foreign exchange value differences gave India an edge. With the high credibility of the Indian medical professionals all over the world this was a win-win proposition. It is unfortunate that this grand plan did not take to wings and Mysuru lost a great opportunity.

However, this minor factor does not nullify the claim for Mysuru to be called as a Medical City. Let us have a brief glance over a few facts.

A brief history

Wadiyars' era was imbued with the idea of societal concern in every developmental effort. They strongly believed to be a model to its citizens when it came to their belief in medical treatment. They had strong faith in traditional medical practices like Ayurveda. They practiced a good health regimen by patronising activities like Yoga and Kusti (wrestling). However, they also valued modern allopathic medical practices and founded many big hospitals.

Wadiyars established the iconic Doddaspatre (K.R. Hospital), the Ayurveda and Unani Hospital side by side as if to emphasise their belief in both the streams of medical practices. They provided with spacious Cheluvamba Hospital for maternity care within K.R. Hospital complex and an Ophthalmology Block to deal with eye ailments. They built P.K.T.B. Sanatorium in a very sprawling green area on an elevated place to deal with dreaded T.B. They also built a separate hospital for dealing with other epidemic diseases on an hilly place near Eidgah Maidan. They also established a large residential school for the visually and hearing impaired children.

Above all, they established a Medical College in Mysuru which went on to produce thousands of highly merited and dedicated medical professionals. They have served the State, the country and abroad, and brought laurels back home. The large auditorium of Mysuru Medical College and Research Institute (MMC&RI) in J.K. Grounds, with an alumni membership of more than 1,000, stands testimony to the contributions of MMC doctors all over the world.

Many philanthropic-minded businessmen in the city have built large hospitals to serve the poor and the women.

These medical facilities built by the Wadiyars have spawned a large Government and private medical infrastructure which could be envy of any other city in the State and the country. And a right to be called a Medical City as well.

Today

Over a period, the entire Government medical infrastructure in the city has undergone a metamorphic change. In the K.R. Hospital complex a new OPD Block, an Emergency Block, a Surgical Block, a Paediatric Hospital, Diagnostic Centres such as Pathology Lab, X-Ray, CT scan facilities, a few nurse quarters have been added. P.K. Sanatorium complex is full of large speciality hospitals. Sri Jayadeva Institute of Cardiovascular Sciences & Research, Multi-speciality K.R. Hospital Extension Block, MMC&RI Extension Block, a new Ayurveda Hospital and Pancha Karma Complex are located there. A large ESI Hospital, a new Epidemic Hospital and District Hospital Complex have come up nearby on KRS Road.

Today, Mysuru has a plethora of private medical facilities — Diagnostic Centres of various categories like Pathology Labs, X-Ray, CT/MRI, Cath Labs, to a small cellar-based physiotherapy clinics to a well-equipped large physio-clinics; from one doctor clinic to a small residential block hospital to several corporate level multi-speciality large hospital; there are hospitals exclusively treating cancer; then there are individual Ophthalmic specialist centres to medium and big eye-clinics/hospitals; from single dentist clinics to big dental clinics providing range of dental care; clinics providing treatment for ear, nose and throat; Clinics attending mainly to skin ailments, and not to forget the problems relating to hearing and speech.

And the city also has a large complex of private medical college and multi-speciality hospitals, 10 life-saving Blood Banks, more than 300 pharma-wholesalers and 600-plus retailers dealing with more than 48,000 formulations!

Medical City of Mysuru today has facilities for every ailment at different affordable costs. A bird's eye view of that will be very enlightening indeed.

[To be continued next Wednesday]

Miscreants threaten elderly ladies; tie them, loot cash and gold

Consume liquor, watch TV before looting house

Napoklu (Kodagu), Feb. 2 (KS)- A gang of miscreants, who reportedly barged into a house after breaking open the front door, tied up elderly ladies at the house, locked them up in a room, watched TV and consumed liquor before decamping with lakhs of rupees and gold ornaments from the house.

The incident took place at the house of 78-year-old Vanjanda Janaki and 68-year-old Ammakki, sisters of retired Judge Vanjanda Bopaiah at Bommanjigeri in Kolakeri village near here on Monday midnight and the miscreants have decamped with about Rs. 2.5 lakh cash and 83 grams gold jewellery.

Details: On Monday midnight, the miscreants, who broke open the door of the house, barged inside, threatened the two elderly ladies with a knife and tied their hands and legs with a rope.

They then locked the ladies in a room, took out liquor bottles and consumed the same outside the house. After entering the house after sometime, the miscreants switched on the TV and again consumed liquor. The miscreants then looted cash and jewellery and fled from the house.

The shocked ladies, somehow managed to loosen the knot of the rope on Tuesday morning and managed to call their brother Bopaiah in Bengaluru and informed him about the incident. Bopaiah then called the Police and informed them. The Police, who rushed to the house, untied the elderly ladies who had sustained minor injuries and got them treated at Napoklu Hospital.

Madikeri Sub-Division Dy.SP Gajendra Prasad, Circle Inspector Anoop Madappa, Rural Sub-Inspector Venkatesh, Napoklu In-Charge Sub-Inspector Kushalappa, Head Constable Ravikumar and other Police staff inspected the house during which empty liquor bottles were found.

Madikeri Rural Police, who have registered a case, have launched a hunt to nab the miscreants. The Police have suspected that the miscreants were aware that only elderly women were staying at the house and had targeted the house.

Hunsur MLA stages protest in front of PWD Office

Hunsur, Feb.2- Accusing the PWD of discriminating against Hunsur taluk, Hunsur Congress MLA H.P. Manjunath staged a demonstration in front of the PWD Office here on Saturday.

Maintaining that the PWD was displaying a step-motherly attitude towards Hunsur in terms of grants, Manjunath said that the taluk got more funds when the previous JD(S)-Congress coalition Government was in power. Pointing out that the Rs.35 crore works that started during the coalition Government remains to be complete, the MLA charged the BJP Government of not releasing funds for Hunsur development.

Setting March deadline for the authorities to complete the works, he wanted the Government to end discrimination and release funds in the future. Urging the Government to blacklist the contractor for delayed and sub-standard quality of works, he said that the authorities must ensure quality in works.

Meanwhile, PWD Executive Engineer S.J. Raghunath said that Hunsur taluk is being given first preference as it is a Sub-divisional headquarters. Attributing the delay in works to non-release of funds, he assured that the pending works would be complete in a couple of months.

Mysuru-Kushalnagar four-lane highway

What is MP's personal interest here: KRRS

'1,200 acres to be acquired; Pay Rs. 3 crore per acre as compensation'

Badagalapura Nagendra

Mysuru, Feb. 2 (RKB&BCT)- Stiffly opposing the implementation of the Mysuru-Kushalnagar four-lane, 93-km National Highway (NH) parallel to the existing NH-275 that connects Mysuru and Kushalnagar, the Karnataka Rajya Raitha Sangha (KRRS) has questioned the 'self-interest' of Mysuru-Kodagu MP Pratap Simha in the project.

The NH will start from Bramhapura between Paschimavahini and Naguvanahalli near Srirangapatna and end at Anekadu near Kushalnagar. It will link the Mysuru-Bengaluru Highway that is being expanded to a 10-lane Expressway.

Addressing a press conference at Pathrakarthara Bhavan in city yesterday, KRRS State President Badagalapura Nagendra said that at a time when farmers are suffering from land loss due to various development projects and at a time when tobacco farmers of Mysuru region are facing severe distress, their elected MP is hell-bent on bringing in more highways. "What is Pratap Simha's personal interest in the project," he questioned.

Nagendra said that the MP had directed the National Highways Authority of India (NHAI) officials to speedily acquire land owned by farmers and escalate the work on the construction of the NH. "Ideally, being a representative of the people, Pratap Simha should have discussed the plight of farmers who will lose their lands for the highway. He is least bothered about the farmers and has never raised his voice against the injustice meted out to them in the name of development," he said.

"This Highway project is a threat to the environment. As the MP is a strong advocate of the project, we suspect him having self-interest in it. We suspect there is commission involved in the road work. Instead of widening the existing NH-275, an entirely new project has been taken up and this was unnecessary as over 1,200 acres of fertile land will be acquired for the project," he charged.

The KRRS leader said that it was unfortunate that Pratap Simha, who claimed to be hailing from the farming community, had failed to support the farmers. We will hold State-wide protests if the Government does not drop its decision to acquire fertile agricultural land for the road project," he said.

The Government must pay Rs. 3 crore per acre as compensation to farmers who lose land and jobs must be provided to one of the family members; once the road is completed, toll must not be levied from farmers, he demanded.

Backward Classes Commission Member visits Mysuru

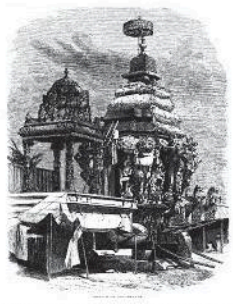
Mysuru, Feb. 2 (RKB&DM)- Karnataka Backward Classes Commission Member Rajashekar on Monday visited Puttegowdanahundi and Palya villages in the taluk and gathered data on the economic, academic and social conditions of Gowda Lingayat community members.

Rajashekar's visit comes after Gowda Lingayat Mahasabha office-bearers led by Basavajaya Mrutyunjaya Swamiji met Karnataka Backward Classes Commission Chairman Jayaprakash Hegde and the Commission members at Bengaluru recently and submitted a memorandum seeking to consider Gowda Lingayats of old Mysuru region and Panchamasali Lingayats of North Karnatka region as one and the same and grant 20 percent reservation in jobs and education.

After visiting Puttegowdanahundi and Palya villages, Rajashekar held a meeting with Gowda Lingayat community members at the Government Guest house and heard their plea for granting 20 percent reservation to the community.Gowda Lingayat Mahasabha office-bearers Alanahalli Puttaswamy, Cable Mahesh, Ammanapura Mallesh, Palya Guruswamy, Thotaswamy, Mahadevappa, DooraManjunath, Shambu Patel, Backward Classes Welfare District Officer H.S.Bindiya, Taluk officer Chandrakala and others attended.

WORD OF THE DAY

Juggernaut



Pronunciation: JUG-er-nawt.
Meaning: A juggernaut is a massive force, campaign, movement, or object that crushes whatever is in its path.
Origin: In the early 14th century, Franciscan missionary Friar Odoric brought to Europe the story of an enormous carriage that carried an image of the Hindu god Vishnu (whose title was Jagannath, literally, "lord of the world") through the streets of India in religious processions. Odoric reported that some worshippers deliberately allowed themselves to be crushed beneath the vehicle's wheels as a sacrifice to Vishnu. That story was likely an exaggeration or misinterpretation of actual events, but it spread throughout Europe. The tale caught the imagination of English listeners, and they began using juggernaut to refer to any massive vehicle (such as a steam locomotive) and to any other enormous entity with powerful crushing capabilities.
Example: "The original Ghostbusters was such a pop-culture juggernaut that even Ray Parker Jr.'s theme song became a Number One hit, knocking Prince's 'When Doves Cry' out of the top spot." — Rolling Stone

THE ODD WORD

Jaculiferous
Having arrow-like prickles.

PHRASE OF THE DAY

Jack of all trades, master of none

Meaning: The phrase 'Jack of All Trades, Master of None' refers to a person who is competent in many skills, but is not outstanding in any of them.
Origin: The idiom 'jack of the trades, master of none' originates from Elizabethan English. The idiom was famously used by Robert Greene in his 1592 booklet 'Greene's Groats-Worth of Wit' where he refers to William Shakespeare with this idiom.
Example: Josh refuses to study one profession. He fails to understand that a jack of all trades is a master of none.

QUOTE BOX

The biggest risk is not taking a risk. In a world that's changing really quickly, the only strategy that is guaranteed to fail is not taking risks.— **Mark Zuckerberg**

RIDDLE THIS

Solve the rebus:

PERSON
PERSONS
PERSONS
PERSONS
PERSONS

Answer :First person singular.

CROSS WORD

4	5	2	3	1	6	7	8	9

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

GOOWMXGEWKRC GMJ YWDJ HMJCIMWHEWKRC OKM

IJMEGWR GCHJIEC KO AKZMCJYO AKZ PGRE EK ILGRBJ.

TODAY'S CLUE: Z EQUALS U

Yesterday's Cryptoquip: Silent gratitude isn't very much use to anyone.
